View 1)

```
CREATE VIEW PatronAndTheirLoans AS
SELECT Person.Name,
Loanable.Name,
Loanable.CheckoutDate
FROM Person,
Loanable
WHERE Loanable.PersonID = Person.PersonID
ORDER BY Person.Name ASC;
```

Shows all patrons that have a loanable checked out, and then the details of what that loanable was and when it was checked out.

View 2)

```
CREATE VIEW MoviesCast AS
SELECT DISTINCT Loanable.Name AS LoanableName, Person.Name AS PersonName
FROM Person,
Loanable,
Director,
Actor,
Movie,
MovieActor
WHERE Loanable.ID = Movie.ID AND
(Movie.DirectorID = Person.PersonID OR
(Person.PersonID = MovieActor.ActorID AND
Movie.ID = MovieActor.MovieID) )
ORDER BY Loanable.Name ASC;
```

For every movie shows the director and all the actors that worked on that movie
